YEAN HERN ENTERPRISE CO., LTD

KUN SHAN YEAN HERN PIPE VALVE CO., LTD

PROFILE:

YEAN HERN ENTERPRISE CO., LTD., established in 1982, located in Kaohsiung Taiwan (Its registered trademark is JPE), is a design, production, sales and service for the integration of processing enterprise. Our full product line includes the Quick Coupling, Pipe/ Tube/ Hose, Tube Fitting, Instrument Ball Valves/ Valve Manifolds/ Needle Valves/ Check Valves, Pressure Reducing Regulators, Pneumatic and Hydraulic Parts as well as Accessories in the industries of Steel, Petrochemical, Power Plant, Pulp & Paper, Pharmacy, Food, Electronics, Semi-Conductor, chemical and marine etc. The products 50% export all over the world, such as U.S.A., Canada, Sweden, Netherlands, France, New Zealand, Australia, Japan, Singapore, Thailand, Vietnam...etc. Our customers in Taiwan include China Steel Corp., Taiwan Power Company Ltd, CPC Corp. Taiwan, Formosa Plastics Corp., CTCI Corp., United Integrated Services Co., Ltd...etc. We also have many customers in China and we're certified as the China National Petroleum First-Grade Supplier.

In 1998, under the guidelines, "Completed System, Scientific Management, High Quality Product and Customer Satisfaction", Yean Hern was accredited ISO 9001:2000 certificate and obtained customers' trust and loyalty on JPE products. In the meantime, in order to develop the market in China, to enhance the relationship between customers and us, and to provide a better service, Shanghai Yean Hern Industry & Trade Co. Ltd was founded and was renamed to Shanghai Yean Hern Co. Ltd in March, 2004. With continuous efforts, Yean Hern is developing and growing steadily.

In May, 2005, Kun Shan Yean Hern Pipe Valve Co., Ltd was established, so as to improve the competitiveness of JPE products, and to provide the service to the customers in China. The factory area in Kun Shan is 4800 m². The factory is furnished with many advanced machines and equipments such as CNC numerical control lathe machines, Thread forming machines, Ultrasonic Cleaners...etc. To satisfy customers, to provide high quality products & prompt delivery and to design & produce the products according to customers' requests are the strongest motivating factor in our constant drive to improve and grow further. By using the latest manufacturing technologies and state of the art equipment, meanwhile we strictly implement the ISO management system for all our operation processes and controls to provide the highest quality products to our customers. With persistence and effort, we have become one of the leading enterprises of valves and fittings in Taiwan and China.

We attribute our success to our philosophy of "Quality first and customer satisfaction". Besides selling the products, we help customers with product installations & maintenances, technical trainings & consultations, and we are able to produce the pattern according to customers' requests. We continue to create and offer refined and high technique products, while sustaining our commitment to high quality, lower production cost and higher efficiency. We do our best to satisfy every customer. You are always welcome to contacts us for your need.

PRODUCT INTRODUCTION:

JPE Compression Type Tube Fittings

1. Material: SUS316 / 304/ Brass. The material suits different pressure and temperature.
2. Size: 2mm~25mm (1/16”~1”)
3. End Connection: BSP 、 NPT 、 BSPT 、 METRIC 、 UNF etc.
4. Max. working pressure: 6000 PSI (41 MPa).
5. JPE tube fittings are inspected & tested by authorized international inspection firms such as Metal Industries Research & Development Center.
6. Straight bodies and nuts are machined from cold finished bar stock. Elbow and Tee bodies are forged. Nuts are processed with silver coated.
7. JPE tube fittings provide a leak-proof, torque-free seal at all tubing connections and eliminate costly, hazardous leaks in instrumentation and process tubing.
8. There are two kinds of JPE tube fittings: double ferrules type and single ferrule type.
9. The fitting consists of four components: Nut, Back Ferrule, Front Ferrule and Body, it becomes a five-piece connection when affixed to the tubing.
10. The two-ferrule design and sequential action of the fitting over-come variations in tube materials, wall thickness and hardness to assure safe, reliable, leak-free connections.
11. JPE tube fittings are easily installed with no special tools required.

JPE Valve Manifolds

1. JPE Valve Manifolds include two/ three/ five valve manifolds and gauge root valve.
2. Material: SS316 or SS304
3. Bonnet lock pins prevent accidental loosening.
4. Free-swiveling ball end stem (metal seat, std.) assure bubble tight valve closure without seat galling. The special hardened ball seat is ideal for both gas and liquid service.
5. All stem packing is located below the stem threads prevent galling, corrosion and contamination by the process media.
6. Max. pressure rating 6000PSIG @ 200°F (414 公斤 @ 93°C).
7. Pressure rating at max. temperature: PTFE-4130 PSI @ 450°F (284 Bar @ 232°C) ; Graphite-1500PSIG @ 1000°F (103 Bar @ 537°C).
- 8.

JPE Instrument Check Valves

1. Material: SS316
2. Variety of end connections included "JPE" tube end, male or female NPT and ISO., DIN and JIS tapered pipe ends.
3. 100% factory tested for both crack and reseal.

JPE Instrument Ball Valves

1. On/off service ball valve with 2-way pattern and diverter service ball valve with 3-way pattern.
2. Max. working pressure: 6000 PSI (410 Bar) with Peek Seat.
3. Max. temperature: 400 °F (204°C) with Viton body seal.
4. Material: SS316, Brass, Monel and Hastelloy C276.
5. Floating ball design provides seat wear compensation and ensures leak proof shut off on pressure.
6. Micro-finished ball provides a positive seal.
7. Variety of end connections included "JPE" tube end, male or female NPT and ISO. DIN and JIS tapered pipe ends.
8. Handle indicates flow direction and color code handles.
9. Panel mountable.
10. 100% factory tested. Each valves is 100% tested with nitrogen at 1000 PSI (69 Bar) for leakage at the seat and stem packing or hydrostatic shell test in performed at 1.5 times the working pressure.

JPE Instrument Needle Valves

1. Material: SS316 or SS304.
2. Forged or Bar Stock body construction.
3. Metal seated (std.): Metal to metal seal for pressure tightness at elevated temperature.
4. Straight or Angle Pattern with panel mounting optional.

5. One piece or non-regulating Vee tip, non-rotating ball tip optional.
6. Variety of end connections: male and female NPT and ISO., DIN and JIS tapered pipe ends.
7. Max. Working Pressure: 6000 PSI at 200 °F (414 Bar at 93°C).
8. Pressure rating at max. temp.: PTFE-4130 PSI at 450 °F (284 Bar at 232°C) and Grafoil-1500 PSI at 1000 °F (103 Bar at 537°C)
9. 100% factory tested. Each valves is 100% tested with nitrogen at 1000 PSI (69 Bar) for leakage at the seat and stem packing.

JPE Series Pressure Regulator

Description :

1. Internal Leak rate: 2 x 10-8 atm cc/ sec He
2. Body: SUS316L / Brass
3. Diaphragm: SUS316L

ISO9001:2000 Certificate (Yean Hern Enterprise Co., Ltd.)

CERTIFICATION

A21 1751

CERTIFICATE OF REGISTRATION

This is to certify that the
Quality Management System of

Yean Hern Enterprise Co., Ltd.

No. 93-18, Fongren Rd., Fongshan City, Kaohsiung County, Taiwan, R.O.C.

For

Professional manufacture and assembling of threaded socket weld, butt weld, tube fittings
and quick couplings made of high pressure forged steel, brass alloy and stainless steel.

Has been assessed by AFAQ-EAQA and complies with the
Quality Management System requirements of

ISO 9001:2000

ORIGINAL DATE OF CERTIFICATION	DATE OF ISSUE	DATE OF EXPIRY
01-JAN-2002	18-JAN-2008	15-JAN-2011

022

APPROVED BY

ON BEHALF OF
AFAQ-EAQA LTD

AFAQ-EAQA Ltd 185 Park Street LONDON SE1 9DY. Part of the AFNOR Group of Companies.
This certificate is the property of AFAQ-EAQA Ltd and issued subject to the conditions overleaf.
The use of the Accreditation Mark indicates accreditation in respect of those activities covered by the Certificate Number 022.

This certificate is the property of AFAQ-EAQA Ltd and issued subject to the conditions overleaf. AFAQ-EAQA Ltd complies with the International standards in force (ISO/IEC Guide 67 - Cf 41012 standard). AFAQ-EAQA Ltd warrants the
right to modify, at any time and without any notice, the presentation of this certification document. This document and more specifically the logo featuring on this document can only be used by its holder in the frame of
relevant legal requirements and a clear and direct communication.

AFAQ-EAQA LTD - 185 PARK STREET - BANGSDE LONDON SE1 9DY UK - REGISTERED IN ENGLAND NO. 009819

CERTIFICATE OF ASSESSMENT

AQA International, LLC, attests that:

Kunshan Yuan Hern Pipe Valve Co., Ltd.

No.8, Qianan Road, Dianshanhu Town, Kunshan City,

Jiangsu Province, China

with a scope of :

*Manufacture of Brass, Steel and Stainless Steel Tube Fittings,
Instrument Valves, Valve Manifolds, Pressure Reducing Regulator,
Hydraulic & Pneumatic Quick Coupler and their Parts*

is in compliance with the international Quality System Standard ISO 9001 - 2000.

"Further clarifications regarding the scope of this certificate and the applicability of
ISO 9001:2000 requirements may be obtained by consulting the organization."

Certificate No.: 6040
Registration Period: 12/30/2005 to 12/30/2008
Initial Registration: 12/30/2005

President, AQA International

1105 Belleview Avenue
Columbia, South Carolina 29201, USA

METAL INDUSTRIES R&D CENTRE

1001, Kaonan Highway 813, Nantzu, Kaohsiung, Taiwan.

1. Test date : 2005/06/01
2. Test Area : MIRDC Fluid Mechanical Laboratory.
3. Test Item : Hydraulic test
4. Test Accordance : YEAN HERN ENTERPRISE CO. LTD. requirement
5. Test Result :

JPE TUBE FITTINGS:

1. MATERIAL:Stainless steel type 316

2. COMPONENTS:

A:UNION ELBOW-03

B:UNION ELBOW-04

C:MALE CONNECTOR-03-4

D:MALE CONNECTOR-04-4

E:UNION TEE-03

F:REDUCING UNION-03-4

Sample	Name	Test result
01	JPE TUBE FITTINGS	There is no leakage during one hour hydraulic test use 6,000psig. (see Fig 1)

QUALITY ASSURANCE

1. Yean Hern promise and ensure that all the products we supply are manufactured and conformed to the quality standards, technical requirements and contracts of orders.
2. Yean Hern promise and ensure that all the products we supply meet and conform to the part numbers, specifications, models, materials, pressure ratings, wall thicknesses and mechanical property of the products required by the customers. All the products are furnished with the Guaranty & Warranty Certificate and Manufacture & Inspection Certificate approved by our Inspection Dept.
3. Yean Hern promise and ensure that the inner and outer surfaces of all the products we supply are burnished and without cracks, splits, burrs, scars, acid-washing, hot rolled scales or other deficiencies interfere with the usages.
4. Before the raw materials are employed, they are all inspected and approved by our Inspection Dept. and then allowed to be brought into manufacturing.
5. Yean Hern promise and ensure that all the products we supply are manufactured according to the production standards proposed and required by the customers.
6. Others: Both parties agree to observe the “good will” to find ways for any exception of the above.

YEAN HERN PIPE VALVE CO., LTD
KUN SHAN YEAN HERN PIPE VALVE CO., LTD

GUARANTY & WARRANTY CERTIFICATE

1. The guarantees of products should be valid for 12 months after deliver.
2. Yean Hern guarantee the products we offer above are new and defect-free. Warranty conditions will cover the assembly or material defects under normal operation. Under this condition, if there are any correct defects in material or workmanship discovered, we'll arrive on site to solve the problems within 48 hours. If any product defects happened, any repair or replacement of the product will be covered by Yean Hern at no charge for parts or labor.
3. Within the guarantee period, customers are entitled to terminate the Agreement, if any product defects happened or Yean Hern fails to implement the terms and conditions of sales contract.
4. With invalid guarantee period, if any product defects happened, Yean Hern will arrive on site to investigate and help solve the problems within 48 hours after receiving customers' notices.
5. The above warranty does not cover any damage caused by accident, improper use, misuse or other human errors, and defects from installation.
6. Others: Both parties agree to observe the "good will" to find ways for any exception of the above.

YEAN HERN PIPE VALVE CO., LTD
KUN SHAN YEAN HERN PIPE VALVE CO., LTD

SERVICE WARRANTY

1. Yean Hern will arrive on site for the after-sales-service, and help deal with the business affairs after customers have placed the order.
2. Please contact our customer service people and our professionals will give a visit on site regularly to investigate, follow up, provide technical guidance, cooperate and coordinate according to customers' need.
3. Our professionals will dispatch the materials on time to the destination appointed by customers and also pay attention to the quality and quantity.
4. Our professionals will arrive on site to solve the problems regarding the product technology, workmanship and during the installment within 48 hours after receiving customers' notices. Our efforts to improve our after-sales-service and provide customers with the utmost in comfort and convenience are tireless.
5. Others: Both parties agree to observe the "good will" to find ways for any exception of the above.
